

Grey Gallery and lounge Seattle, WA

Creating a new use for an old space. Grey Gallery and Lounge located on Capitol Hill in Seattle, both an art gallery and a cocktail lounge. Strata Architects provided design services for the tenant improvement, including design and permitting of the bar kitchen. A large swinging wall opens the gallery to the bar area during operating hours, and the pivot allows it to close for evening functions. Existing wood trusses and beams were used to create contrast with the new steel details, creating a contemporary space.
